Paper Trade Journal—Volume 146—Year 1962
Index to Feature Articles

The articles are cross-referenced for the convenience of users. The index lists 235 feature articles that appeared in Paper Trade Journal in 1962. Short items and news stories not included in this index.

	Page	Date
Alkaline Pulping (kraft & soda)		
Automatic Control of a Kraft Continuous Digester—R. F. Boozer and E. C. Fox	42	June 11
CFP Expansion Features Advanced Design Continuous Digester—Paul Van Derveer	20	Oct. 22
Digester Blow Heat Recovery Systems For Kraft Pulp Mills—Part I—T. T. Collins	44	Aug. 20
Digester Blow Heat Recovery Systems For Kraft Pulp Mills—Part II—T. T. Collins	24	Aug. 27
First European Kraft Mill To Use Flash Drying	20	Nov. 26
How Stainless Steel Overlay Adds to Life of Mead's Alkaline Pulp Digesters—Zane S. Blanchard	36	Jan. 15
Kraft Continuous Digester Operating Problems and Their Solutions—W. P. Zimmerman and J. J. Holt	28	June 4
More Details of Kamyr's New Digester System Incorporating Washing	32	Feb. 26
Multiple-Effect Evaporator Instrumentation With Anticipator Computer Controls—William C. Howard.	42	Sept. 17
New Design of Causticizing System for Kraft Mills—D. Dahlstrom	24	Feb. 12
Oxidation of Kraft Black Liquor Where Does It Stand—T. T. Collins	39	July 23
Potlatch Brings New Upflow Continuous Digester "On Stream"—Paul Van Derveer	40	Oct. 15
Potlatch's Continuous Digester: How Well Has It Performed on Kraft?	35	Nov. 19
"Practical" Topics Hold Prime Interest of Alkaline Pulpers at Savannah—Harry Dyer	43	Nov. 12
Recent Trends in the Design of Kraft Pulp and Paper Mills—Gunnar W. E. Nicholson	24	Oct. 8
Bleaching		
Inland's New Bleach Plant Improves Sulphite Grades, Cuts Costs—E. W. Grier	23	Mar. 19
Role of Zinc Hydrosulphite In The Paper Industry Today—R. W. Barton and M. S. Atwood	40	May 21
Use of Two Stage Hypochlorite Peroxide Bleaching of Sulphite—L. M. Gibson	47	Nov. 19
Coating		
Coater on Austrian Board Machine Doubles as On and Off Machine Unit—Ernest F. Barker	44	May 14
Coatings Hold Promise for Future of Paper and Board Industry—Paul Van Derveer	38	May 28
Coating Improvements Highlight Major Packaging Corp. Project—Paul Van Derveer	36	Dec. 3
Consolidated, World's Largest Coater, Adds Another Machine—Paul Van Derveer	20	Feb. 26
Flooded Nip Coaters And Their Operation—Jack L. Diltz	40	Nov. 12
Lower Basis Weight for Publication Papers?	39	Apr. 30
New Bowaters Paper Mill Marks Entry Into Coating in N. A.	36	Aug. 20
New Gums for High Solids, Low Viscosity Coating Colors—C. C. Spencer	24	Feb. 19
New Resin Emulsion for Coating Shows Promise in Packaging	32	Jan. 22
New Sterling Coater is World's Most Flexible—Ernest F. Barker	36	Dec. 10
Off Machine Coater at Cumberland Mills Features In-Line Fans	43	Mar. 12
On-Machine Roll/Blade Coating and Sheet Finishing at St. Francisville—Harry Dyer	28	Mar. 26
Proper Records Lead Way to Effective Coating Preparation—William G. Farin	30	Apr. 2
Simplex Strives for Higher Speeds in Extrusion Coating	34	Oct. 8
Survey Shows Quantity of Materials Used in Paper and Board Coating	25	June 4
Use of Soy Protein in Coating Paper and Board—Gerald Skidmore	32	Aug. 27
Uses and Challenges for Starch In the Paper Industry—Donald S. Greif	43	Dec. 10
Wet-on-Wet Coating, New Design Cutter-Layboy Highlight Cylinder Machine—Harry Dyer	36	Sept. 10
Weyerhaeuser's New Board Machine Features Versatile On-Machine Coater—Harry Dyer	44	Mar. 12
Where Does Polypropylene Stand in the Extrusion Coating Picture?—Herschel A. Elliott	36	Apr. 30
Converting Operations		
Break Through in Automatic Sealing of Telescopic Cartons Proves Worth—A. R. Perrin, Jr.	26	Feb. 19

Survey Shows Quantity of Materials Used in Paper and Board Coating	25	June 4
Use of Soy Protein in Coating Paper and Board—Gerald Skidmore	32	Aug. 27
Uses and Challenges for Starch In the Paper Industry—Donald S. Greif	43	Dec. 10
Wet-on-Wet Coating, New Design Cutter-Layboy Highlight Cylinder Machine—Harry Dyer	36	Sept. 10
Weyerhaeuser's New Board Machine Features Versatile On-Machine Coater—Harry Dyer	44	Mar. 12
Where Does Polypropylene Stand in the Extrusion Coating Picture?—Herschel A. Elliott	36	Apr. 30
Converting Operations		
Break Through in Automatic Sealing of Telescopic Cartons Proves Worth—A. R. Perrin, Jr.	26	Feb. 19

	Page	Date
Corrugators Focus Spotlight On Progress at Beantown Conclave—Harry Dyer	34	Nov. 5
Flexographic Printing of Corrugated Speeds Setup and Improves Definition	47	June 11
Improved Products, Techniques Mark Plastics-Paper Conference—Paul Van Derveer	28	Oct. 22
International Paper Dedicates Its Newest and Largest Shipping Container Plant	30	Oct. 1
New Tobacco Packaging Plant	24	July 30
Scottish-Finnish Combine Operates Prolific Multiwall Bag Plant—Ernest F. Barker	36	June 11

Engineering

Advances in the Art of Roll Doctoring—Arthur E. Keyworth	40	July 9
An Economic Study of Variable Capacity Pumping—Frank Forrest and R. G. Bengston	22	Jan. 22
Check These Points for Long V-Belt Life—Robert N. Boggs	24	Jan. 1
Comparing High Velocity Dryers-Aspects of Theory and Design—T. Larsson	36	Sept. 17
Control Systems and the Modern Pulp and Paper Mills—R. R. Newton, Jr.	44	May 7
Digester Blow Heat Recovery Systems for Kraft Pulp Mills, Part I—T. T. Collins	44	Aug. 20
Digester Blow Heat Recovery Systems for Kraft Pulp Mills, Part II—T. T. Collins	24	Aug. 27
Drive System Modernized on St. Regis Bucksport Machine—T. Gerace, S. J. Campbell	43	May 21
European Thoughts on Paper Machine Stock Distributors and Stock Inlets—W. Muller-Rid, A. Stark and G. Pausch	26	Jan. 1
Engineers Hear What's New in Methods, Equipment at Montreal	22	Oct. 29
Expander Rolls Perform Multiple Chores for Oxford	34	Jan. 1
Four Years of Pumping Using Experimental 'Diro' Impeller—Edward J. Law Jr. and Milton J. Frisch	30	Dec. 24
Fundamentals of Paper Machine Vacuum Systems	36	Oct. 15
How CCTV Guarding a Pulp Washer Pays Off for St. Regis	44	Jan. 15
How Mills Use Reinforced Plastics to Combat Corrosion—Daniel J. Papalje	28	Apr. 30
Modern Regulated Drive Techniques For the Paper Industry—Robert P. Derrick	32	July 23
More Use Needed of Available Tools to Study Presses—F. P. Thornton	26	Feb. 26
Old and New in Fourdrinier Machine Couches	32	Oct. 29
Performance of Air System and Enclosed Hood on Champion's Newest Machine—B. J. Sledge	26	Feb. 12
Place of Stainless Steel in Papermaking Equipment—G. H. Klouman	26	July 30
Premoid Improves Draw Control with New Drive System	32	Feb. 12
Recent Trends in Design of Kraft Pulp and Paper Mills—G. W. E. Nicholson	24	Oct. 8
Where Hammermill Uses Large-size Reinforced Polyester Exhaust Fumes	41	June 11

Finishing

Automation in the Finishing Room Latest Developments—Paul Van Derveer	30	Dec. 17
Break Through in Automatic Sealing of Telescopic Cartons Proves Worth—A. R. Perrin, Jr.	26	Feb. 19
Continuous Layboy Gives Faster and More Accurate Sheeting—D. C. Beaulieu	20	Jan. 1
How Cotton Fiber Papers Are Sorted at Gilbert—Carl S. Matson	37	Sept. 3
How Downingtown Cut Costs with New Type Cutoff Control on Board Cutter—James H. McClung	25	Nov. 26
Hydraulic Lift, Automatic Counter Triple Output of Embosser-Sheeter	31	Jan. 22
New Sheeter Improves Finishing Operation at Finch, Pruyn	42	Aug. 20
S. D. Warren Makes Substantial Savings With Simultaneous Skid Strapping—Richard C. Dow	48	Dec. 10
Sheet Sorting Machine—An Answer to Count-&-Fan in Finishing Rooms?	41	Apr. 16
Sheet Trimming Procedures and Production Methods—Arthur R. Perrin, Jr.	46	Dec. 10
Trends and Developments in Canadian Finishing Rooms—E. C. Gilbert	36	July 9

Forecasts and Industry Growth

Automation—Its Effects on the Worker In the Paper Industry—James S. Youtsler	44	Aug. 6
Economic Review of Our First Quarter and a Look Ahead—W. LeRoy Neubrech	28	June 25
Export Trends—All Up But Pulp—Fred Bryer	30	June 25
Industry's Outlook for 1962 and a Review of 1961	40	Jan. 15
Modest Recovery Pattern For Industry's '61 Earnings—John W. Saunders	44	Apr. 9
Present, Short and Long Term Market Pulp Outlook in Europe—T. E. G. Baker	50	Mar. 12
The U. S. Paper Industry's Stake In the Common Market—Ewart Landberg	32	Oct. 1
Web Offset Printing—Its Growth and Its Strength—Hyman Safran	25	July 16

Instrumentation

Automatic Control of a Kraft Continuous Digester—R. F. Boozer and E. C. Fox	42	June 11
Automation—Its Effects on the Worker In the Paper Industry—James S. Youtsler	44	Aug. 6

	Page	Date
Computer Control of the Kraft Fourdrinier Linerboard Machine—Charles W. Carroll	42	Sept. 10
Computer Simulations Improve Statistical Process Controls — Thomas S. Harris	25	Jan. 1
Control Accuracy Important in TiO_2 Filler System—William G. Farin	30	Jan. 8
Control Systems and the Modern Pulp and Paper Mills—R. R. Newton, Jr.	44	May 7
Cut Downtime with Accurate Reliable Speed Measurement—W. C. Carter		Dec. 31
Development of Automatic Broke System for Vacuum Pick-Ups — K. E. Lambert	32	Jan. 15
Fitchburg Installs Computer on Specialty Paper Machine	20	Oct. 29
How CCTV Guarding a Pulp Washer Pays Off for St. Regis	44	Jan. 15
Most Modern Stock Preparation Features Complex Electronic Blending System—Harry Dyer	32	Aug. 13
Multiple-Effect Evaporator Instrumentation With Anticipator Computer Controls—William C. Howard	42	Sept. 17
Shadow Box Gives Visual Comparison of Sheet Smoothness—Daniel Embon and Gordon White	22	Aug. 27

Maintenance

Check These Points for Long V-Belt Life—Robert N. Boggs	24	Jan. 1
Do's and Don'ts for Rubber Covered Curved Rollers—Frank Preston	32	Apr. 23
How Mills Use Reinforced Plastics to Combat Corrosion—Daniel J. Papalje	28	Apr. 30
How Stainless Steel Overlay Adds to Life of Mead's Alkaline Pulp Digesters—Zane S. Blanchard	36	Jan. 15
New Flame Plating Process Protects Cutting Parts from Wear — H. V. Mosby	38	Mar. 26
Nine Check-Points on the Road to Fewer Maintenance Dollars—W. H. Hebestreit	40	Nov. 19

Materials Handling

Bulk Handling of Liquid Additives To Machine Furnish—William G. Farin	28	Feb. 26
C-Z's "Utilizer"—The Answer to Barking and Chipping in the Woods???	27	Jan. 22
Flexible Mixing and Metering System Handles Miscellaneous Chemicals — William G. Farin	32	Mar. 19
Handling of Filler Clay Is An Important Cost Factor—William G. Farin	28	Jan. 22
How Rosin Size is Handled for Best Results—William G. Farin	26	Jan. 29
Hydraulic Lift, Automatic Counter Triple Output of Embosser-Sheeter	31	Jan. 22
Palletizing Not Same for Industrial As for Fine Papers—William F. Jacobi	48	Apr. 16
Should Your Company Roll Its Own?—Armund J. Schoen	34	Feb. 26

Mechanical Pulping

Progress in Chemi-Mechanical Pulps by NSSC Process—A. von Koeppen	20	Dec. 17
Pulp Mill Co-Stars Chip Groundwood System and Kraft Continuous Digester—Harry Dyer	30	Sept. 3
Two European Mills Switch From Groundwood to ALB Semicell—Ernest F. Barker	20	July 16

Miscellaneous

A Look at the Paper Industry in General and St. Regis in Particular — W. R. Adams	40	Aug. 13
Amalfi—Forgotten Paper Center in the Sun—Ernest F. Barker	20	Mar. 19
An Old Craft Becomes a Fine Art at 12 x 8 Mill	27	Dec. 24
European Boom Creates Crisis in Austrian Industry	33	Dec. 24
How Paper Industry Resolves Disputes Through Arbitration	28	Jan. 8
How to Implement the New Foreign Trade Policy—William H. Chisholm	36	Mar. 5
How to Make Papermaking Research More Effective—Jasper Mardon	24	Apr. 2
Industry Adopts Clear Position on Reciprocal Trade—W. R. Adams	33	Mar. 5
Industry Profits Up in First Quarter But Not Universally — John W. Saunders	35	May 28
Maine P&P Foundation Holds Open House for Industry	48	May 7
Major Expansion Projects in the United States and Canada	44	Aug. 13
Modest Recovery Pattern For Industry's '61 Earnings—John W. Saunders	44	Apr. 9
New Research Center Officially Opened by St. Regis	36	Nov. 19
The Paper Industry is Changing—Is the Paper Stock Industry?—A. Neil McLeod	23	Apr. 23
Quality Control—The Key to Specialty Papermaking—Gerald Houppert	34	Apr. 30
Rapid Expansion of Pulp and Paper Industry in Yugoslavia—John Levett	26	Dec. 17
Reed Paper Group's New Research Center Opened	28	Dec. 17
Research Executives Meet In Exploratory Seminar	33	Jan. 8
Russian Pulp—Is It a Threat to the Market?—Ernest F. Barker	26	Apr. 2
Supervisory Training—Who is Responsible? What Is Involved?—Martin L. Shotzberger	35	June 18
Too Much Emphasis on Growth And on Research	44	May 21
Training of Paper Machine Crews and of Papermaking Supervisors—Jasper Mardon	47	May 17
What is Wrong With the Paper Industry?—Lawrence K. Gessner	23	Jan. 29
What We Can Do About Our Economic Weakness—Karl R. Bendetsen	44	Apr. 16

New Mills and Machines

A Neutral Sulphite Semi-Chemical Pulp Mill—Philip J. Hannan	41	June 18
Arizona's First Paper and Board Mill Now Operating at Snowflake—John C. W. Evans	32	Feb. 5

	Page	Date
Boise-Cascade Completes Expansion, Doubles Output of Kraft Linerboard —Harry Dyer	36	May 7
CFP Expansion Features Advanced Design Continuous Digester — Paul Van Derveer	20	Oct. 22
Coating Improvements Highlight Major Packaging Corp. Project—Paul Van Derveer	36	Dec. 3
Drive System Modernized on St. Regis Bucksport Machine—T. Gerace and S. J. Campbell	43	May 21
First European Kraft Mill To Use Flash Drying	20	Nov. 26
First Inverform Installation in the U. S.—Paul Van Derveer	38	Mar. 12
First NSSC Corrugating Medium Mill In Norway Now Operating	28	Oct. 8
$5,000,000 Adds Versatility to PCF's Market Pulps—Harry Dyer	36	May 21
How Italian Mill made Switch to New High Yield Sulphite Process—Ernest F. Barker	20	July 2
Huge Modernization at Rauma's Sulphite Pulp Mill Near Doubles Output —M. J. Jalkanen	46	Dec. 3
Italian Mill Uses New-Type Continuous Digester in NSSC Pulping—Ernest F. Barker	20	Dec. 31
Kodak Reveals Operating Details of New Photographic Paper Mill	28	Nov. 5
Modernization Boosts Dexter Capacity for Specialty Paper	20	Oct. 8
New Bowaters Paper Mill Marks Entry Into Coating in N. A.	36	Aug. 20
New Deinking Plant at the Moraine Mill—Howard A. Neubauer	30	Oct. 8
New Sheeter Improves Finishing Operation at Finch, Pruyn	42	Aug. 20
New Sterling Coater is World's Most Flexible—Ernest F. Barker	36	Dec. 10
New U. S. Gypsum Mill Has One Principal Supplier	34	Apr. 9
On-Machine Roll/Blade Coating and Sheet Finishing at St. Francisville—Harry Dyer	28	Mar. 26
Potlatch Brings New Upflow Continuous Digester "On Stream" — Paul Van Derveer	40	Oct. 15
Pulp Mill Co-Stars Chip Groundwood System and Kraft Continuous Digester—Harry Dyer	30	Sept. 3
Rising Keeps Eye on Quality in Making Rag Paper	21	June 4
Something Really New in Machine Room Construction and Design — Ernest F. Barker	20	Apr. 2
Southwest Forest Industries' Mill Includes All Latest Developments—F. J. Janocha	34	Feb. 5
Unique Woodroom Serves Finnish Groundwood Mill	30	Apr. 23
Wet-on-Wet Coating, New Design Cutter-Layboy Highlight Cylinder Machine—Harry Dyer	36	Sept. 10
Weyerhaeuser's New Board Machine Features Versatile On-Machine Coater—Harry Dyer	44	Mar. 12
Whippany Converts Giant Cylinder to Fourdrinier at Eden Mill	30	Feb. 19
Widest Paper Machine in Europe Now in Full Operation—Ernest F. Barker	36	Nov. 12

Paperboard Manufacture

	Page	Date
Air Elimination on a Cylinder Machine and in Beater Room—Lloyd J. Whims	50	Sept. 17
Better Control of Broke and Downtime Costs—Earl J. Gaudet	26	Oct. 22
Boise-Cascade Completes Expansion, Doubles Output of Kraft Linerboard —Harry Dyer	36	May 7
Calcium Chloride—An Effective Stock Drainage Aid—I. C. MacGugan	22	Jan. 8
Chemicals and Synthetics Reduce Felt Stretch At High Temperatures — Richard J. Hartigan	32	Apr. 2
Curl, Before and After the Size Press Calenders and Coating—Robert E. Collins	38	June 18
Drying Installations Featured at WMU Conference	20	Jan. 29
Experiences with Needled Felts on Cylinder Machines—John W. Jesse	32	Sept. 24
Four Mills Report Big Advantages From Continuous Washing	20	Jan. 8
How Chemical Application Extends Paper Machine Wire Life—C. G. Hollis and R. H. Buckman	28	July 16
How Downingtown Cut Costs with New Type Cutoff Control on Board Cutter —James H. McClung	25	Nov. 26
How Whippany Uses Curved Rolls At Its Eden Mill	33	Dec. 17
Improved Application of Bleaching Solutions With A Shower Pipe—Edward J. Snyder	28	Feb. 19
Key to More Profit? Remove More Water at the Wet End—Foster P. Doane	35	Mar. 26
Modern Theories on Pressing and Latest Press Arrangements	46	Sept. 10
New Approach to Paper Machine Press Sections	38	Apr. 9
New Chemical Treatments for Bronze Fourdrinier Wires Get Results—W. M. Stephenson and J. R. Nelson	22	Feb. 19
New Developments in Presses and Details of Press Components	47	Sept. 17
New Developments in Stiffening and Stabilization of Paper—William M. Gallahue	35	Oct. 1
Papermakers Discuss . . . Needled Felts and Fine Papers	44	Nov. 19
Press Maintenance, Noise Reduction Felts and Trouble Shooting	26	Sept. 24
Recent Emphasis on Dispersion Concept in Slime Control—J. R. Nelson	42	Dec. 3
Rotoformer Aids Spaulding's Search for New Products	46	July 9
Stock Refining Improvements at a Cylinder Linerboard Mill—Norman R. Moore	42	Apr. 9
Study of Press Dynamics Suggests Change in Present Practices—Elliot S. Kohn	28	Nov. 26
Three-Ring Paperboard Scene: In Support of Cylinder Boxboard—Leo H. Schoenhofen	25	June 25

	Page	Date
Use of High Velocity Air Dryer to Control PM Moisture Profile—James W. Taylor	20	Feb. 19
Virgin Pulp Fourdrinier Versus Waste Paper Cylinder Board — Lloyd E. Williams	51	Apr. 16
Weyerhaeuser's New Board Machine Features Versatile On-Machine Coater—Harry Dyer	44	Mar. 12
Whippany Converts Giant Cylinder to Fourdrinier at Eden Mill	30	Feb. 19

Papermaking

Advances in the Art of Roll Doctoring —Arthur E. Keyworth	40	July 9
Better Control of Broke and Downtime Costs—Earl J. Gaudet	26	Oct. 22
Brightwater Solves Tight Space Problem With Bar Guide	42	Aug. 13
Calcium Chloride—An Effective Stock Drainage Aid—I. C. MacGugan	22	Jan. 8
Chemicals and Synthetics Reduce Felt Stretch at High Temperatures	32	Apr. 2
Comparing High Velocity Dryers — Aspects of Theory and Design — T. Larsson	36	Sept. 17
Computer Control of the Kraft Fourdrinier Linerboard Machine—Charles W. Carroll	42	Sept. 10
Consolidated, World's Largest Coater Adds Another Machine—Paul Van Derveer	20	Feb. 26
Curl, Before and After the Size Press Calenders and Coating — Robert E. Collins	38	June 18
Cut Downtime with Accurate Reliable Speed Measurement—W. C. Carter	26	Dec. 31
Development of Automatic Broke System for Vacuum Pick-Ups — K. E. Lambert	32	Jan. 15
Developments in High Opacity Lightweight Printing Papers—David C. Kirk, Jr.	25	July 2
Drying Installations Featured at WMU Conference	20	Jan. 29
European Thoughts on Paper Machine Stock Distributors and Stock Inlets W. Mu[illegible]-Rid, A. Stark and G. Pausch	26	Jan. 1
First Inverform Installation in the U. S. — Paul Van Derveer	38	Mar. 12
Fitchburg Installs Computer on Specialty Paper Machine	20	Oct. 29
Four Mills Report Big Advantages From Continuous Felt Washing	20	Jan. 8
Fundamentals of Paper Machine Vacuum Systems	36	Oct. 15
Glues and Gelatins—Their Functions in Papermaking—Richard Tutt, Jr.	30	Apr. 30
How Chemical Application Extends Paper Machine Wire Life — C. G. Hollis and R. H. Buckman	28	July 16
How English Mill Operates Immersion-Reverse Size Press — Ernest F. Barker	20	Apr. 23
How Whippany Uses Curved Rolls At Its Eden Mill	33	Dec. 17
Key to More Profits? Remove More Water at the Wet End — Foster P. Doane	35	Mar. 26
Kodak Reveals Operating Details of New Photographic Paper Mill	28	Nov. 5
Mechanism of Breaks at the Couch and How to Reduce Them	38	Nov. 5
Mill Experience with Stainless Fourdrinier Wires	32	June 25
Mills Report Benefits from Controlled Turbulence Type Headbox—Allen A. Lowe	41	May 7
Modern Theories on Pressing and Latest Press Arrangements	46	Sept. 10
More Use Needed of Available Tools to Study Presses—F. P. Thornton	26	Feb. 26
New Approach to Paper Machine Press Sections—Gunnar Gavelin	38	Apr. 9
New Chemical Treatments for Bronze Fourdrinier Wires Get Results—W. M. Stephenson and J. R. Nelson	22	Feb. 19
New Developments in Presses and Details of Press Components	47	Sept. 17
New Developments in Stiffening and Stabilization of Paper—William M. Gallahue	35	Oct. 1
New Device Guards Paper Machine Bearings	34	Apr. 23
Old and New in Fourdrinier Machine Couches	32	Oct. 29
Papermakers Discuss . . . Needled Felts and Fine Papers	44	Nov. 19
Performance of Air System and Enclosed Hood on Champion's Newest Machine—B. J. Sledge	26	Feb. 12
Premoid Improves Draw Control with New Drive System	32	Feb. 12
Press Maintenance, Noise Reduction Felts and Trouble Shooting	26	Sept. 24
Recent Emphasis on Dispersion Concept in Slime Control—J. R. Nelson	42	Dec. 3
Recent Suction Press Nip Theories Are in Opposition—I. Locke	26	Mar. 19
Rising Keeps Eye on Quality in Making Rag Paper	21	June 4
Screening, Cleaning and De-Aerating Stock at the Paper Machine	29	Dec. 31
Something Really New in Machine Room Construction and Design — Ernest F. Barker	20	Apr. 2
Stock and White Water Delivery and Handling at the Paper Machine	20	Dec. 24
Study of Press Dynamics Suggests Change in Present Practices—Elliot S. Kohn	28	Nov. 26
Use of High Velocity Air Dryer to Control PM Moisture Profile—James W. Taylor	20	Feb. 19
Web Offset Printing Its Growth and Its Strength—Hyman Safran	25	July 16
Wet End Modifications for Improved Quality Higher Speeds — George A. Rogers	40	Mar. 26
Widest Paper Machine in Europe Now in Full Operation—Ernest F. Barker	36	Nov. 12

Production and Economic Data

Demand for Our Industry's Products Continues to Rise—D. W. Slingerland	32	Oct. 8

	Page	Date
Canadian Pulp and Paper in 1961—R. M. Fowler	27	Jan. 8
CPPA Annual Report Features New Developments—R. M. Fowler	52	Feb. 5
Industry's Outlook for 1962 and a Review of 1961	40	Jan. 15
Paper Industry Shows Continued Profit Improvement—John W. Saunders	42	Sept. 3
Production and Sales Set Records in '61 Despite Recession — Morris C. Dobrow	20	Feb. 12

Research

How to Make Papermaking Research More Effective—Jasper Mardon	24	Apr. 2
New Research Center Officially Opened by St. Regis	36	Nov. 19
Reed Paper Group's New Research Center Opened	28	Dec. 17
Research Executives Meet in Exploratory Seminar	33	Jan. 8
Too Much Emphasis on Growth And on Research	44	May 21

Semi-Chemical Pulping

A Neutral Sulphite Semi-Chemical Pulp Mill—Philip J. Hannan	41	June 18
First NSSC Corrugating Medium Mill in Norway Now Operating	28	Oct. 8
Italian Mill Uses New-Type Continuous Digester in NSSC Pulping—Ernest F. Barker	20	Dec. 31
Progress in Chemi-Mechanical Pulps by NSSC Process—A. von Koeppen	20	Dec. 17
Two European Mills Switch from Groundwood to ALB Semicell — Ernest F. Barker	20	July 16

Stock Preparation and Cleaning

Air Elimination on a Cylinder Machine and in Beater Room—Lloyd J. Whims	50	Sept. 17
Bulk Handling of Liquid Additives to Machine Furnish—William G. Farin	28	Feb. 26
Control Accuracy Important in TiO_2 Filler System—William G. Farin	30	Jan. 8
European Fiberizers Spearhead New Stock Preparation Concepts—Ernest F. Barker	36	Aug. 6
Flexible Mixing and Metering System Handles Miscellaneous Chemicals — William G. Farin	32	Mar. 19
Glues and Gelatins—Their Functions in Papermaking—Richard Tutt, Jr.	30	Apr. 30
Handling of Filler Clay Is An Important Cost Factor—William G. Farin	28	Jan. 22
High Speed Fiberizers Find Many Uses in European Mills—Maurice Vaucher	32	Feb. 19
How Rosin Size is Handled for Best Results—William G. Farin	26	Jan. 29
How to Control Efficiency of Gravity Centrifugal Pulp Screens — Otto J. Korth	29	Jan. 29
Let's Take a Fresh Look at Screening Systems and Screen Rooms	20	Jan. 22
Most Modern Stock Preparation Features Complex Electronic Blending System—Harry Dyer	32	Aug. 13
Stock Refining Improvements at a Cylinder Linerboard Mill—Norman R. Moore	42	Apr. 9
Uses and Challenges for Starch in the Paper Industry—Donald S. Greif	43	Dec. 10

Sulphite Pulping

How Italian Mill Made Switch to New High Yield Sulphite Process—Ernest F. Barker	20	July 2
How to Evaluate Alternative Processes For Up-Dating a Sulphite Mill — Frederick G. Perry and Joseph J. Voci	26	Apr. 23
Huge Modernization at Rauma's Sulphite Pulp Mill Near Doubles Output —M. J. Jalkanen	46	Dec. 3
Multiple-Effect Evaporator Instrumentation With Anticipator Computer Controls—William C. Howard	42	Sept. 17
Where is Sulphite Pulp? Dead, Dying or Just Asleep on Its Feet?—John C. W. Evans	36	Apr. 16

Waste Paper

Deinkers Scrutinize European Developments, New Equipment—Harry Dyer	45	Oct. 15
The Deinking Picture in the Fine Paper Field—W. D. Harrison	26	June 25
Design and Cost Considerations for Treatment of Deinking Wastes—Malcolm Pirnie Jr. and Thomas P. Quick	30	July 2
New Deinking Plant at the Moraine Mill—Howard A. Neubauer	30	Oct. 8
New Flotation Deinking System at Austrian Mill—Ernest F. Barker	42	July 9
The Paper Industry is Changing — Is the Paper Stock Industry?—A. Neil McLeod	23	Apr. 23
The Paper Stock Industry Takes A Long, Hard Look at Itself — Harry Dyer	20	June 25
Role of Hydrosulphite in the Paper Industry Today — R. W. Barton and M. S. Atwood	40	May 21
Trends Toward Better Waste Paper Utilization Systems—Jack McKela	40	Oct. 1
Virgin Pulp Fourdrinier Versus Waste Paper Cylinder Board — Lloyd E. Williams	51	Apr. 16

Water

Backwashing is Key to Efficient Sand Filter Operation—S. F. Alling	32	Oct. 22
How New Design in Solids Contact Precipitator Works at Baldwinville	20	Sept. 24
Improving Understanding of Our Industry's Progress in Waste Treatment—Ford T. Shepherd	34	Sept. 17
Plastic Trickling Filters—Design and Operation — V. A. Minch, John T. Egan and McDewain Sandlin	28	May 28
Whippany Completing Final Link in Tri-Mill Waste Treatment System — L. L. Klinger	36	May 14

	Page	Date
Wood		
C-Z's "Utilizer"—The Answer to Barking and Chipping in the Woods??? ..	27	Jan. 22
Problems of Utilizing Sawmill Chips Differ in the Northeast	49	Aug. 6
Unique Woodroom Serves Finnish Groundwood Mill	30	Apr. 23

Author Index to 1962 Feature Articles

A

Adams, W. R.—A Look at the Paper Industry in General and St. Regis in Particular—40, Aug. 13; Industry Adopts Clear Position on Reciprocal Trade, 33, March 5.

Alling, S. F.—Backwashing is Key to Efficient Sand Filter Operation—32, Oct. 22.

Atwood, M. S. and Barton, R. W.—Role of Zinc Hydrosulphite in the Paper Industry Today—40, May 21.

B

Baker, T. E. G.,—Present, Short and Long Term Market Pulp Outlook in Europe—50, March 12.

Barker, Ernest F.—Amalfi-Forgotten Paper Center In the Sun—20, March 19;An Old Craft Becomes a Fine Art at 12 x 8 Mill, 27, December 24; Coater on Austrian Board Machine Doubles as On and Off Machine Unit—44, May 14; European Fiberizers Spearhead New Stock Preparation Concepts —36, Aug. 6; How English Mill Operates Immersion-Reverse Size Press—20 April 23; How Italian Mill Made Switch to New High Yield Sulphite Process—20 July 2; Italian Mill Uses New-Type Continuous Digester in NSSC Pulping, 20, December 31; New Sterling Coater is World's Most Flexible, 36, Dec. 10; New Flotation Deinking System At Austrian Mill—42, July 9; Russian Pulp—Is It a Threat to the Market?—26, April 2; Scottish-Finnish Combine Operates Prolific Multiwall Bag Plant—36, June 11; Something Really New in Machine Room Construction and Design—20, April 2; Two European Mills Switch From Groundwood to ALB Semicell—20, July 16; Widest Paper Machine in Europe Now in Full Operation —36, Nov. 12.

Barton, R. W. and Atwood, M. S.—Role of Zinc Hyrdo-Sulphite in The Paper Industry Today—40, May 21.

Beaulieu, D. C.—Continuous Layboy Gives Faster and More Accurate Sheeting—20, Jan. 1.

Bendetsen, Karl R.—What We Can Do About Our Economic Weakness—44, April 16.

Bengston, R. G. and Forrest, Frank—An Economic Study of Variable Capacity Pumping—22, Jan. 22.

Blanchard, Zane S.—How Stainless Steel Overlay Adds to Life of Mead's Alkaline Pulp Digesters—36, Jan. 15.

Boggs, Robert N.—Check These Points for Long V-Belt Life—24, Jan. 1.

Boozer, R. F., and Fox, E. C.—Automatic Control of a Kraft Continuous Digester—42, June 11.

Bryer, Fred—Export Trends-All Up But Pulp—30, June 25.

Buckman, R. H., and Hollis, C. G.—How Chemical Application Extends Paper Machine Wire Life—28, July 16.

C

Carter, W. C.—Cut Downtime With Accurate Reliable Speed Measurement 26, December 31.

Campbell, S. J., and Gerace, T.—Drive System Modernized on St. Regis Bucksport Machine—43, May 21.

Carroll, Charles W.—Computer Control of the Kraft Fourdrinier Linerboard Machine—42, Sept. 10.

Chisholm, William H.—How to Implement the New Foreign Trade Policy—36, March 5.

Collins, Robert E.—Curl, Before and After the Size Press Calenders and Coating—38, June 18.

Collins, T. T.—Digester Blow Heat Recovery Systems For Kraft Pulp Mills—Part I, 44, Aug. 20; Part II, 24 Aug. 27; Oxidation of Kraft Black Liquor: Where Does It Stand?—39, July 23.

D

Dahlstrom, D.—New Design of Causticizing System for Kraft Mills—24, Feb. 12.

Derrick, Robert P.—Modern Regulated Drive Techniques for the Paper Industry—32, July 23.

Diltz, Jack L.—Flooded Nip Coaters and Their Operation—40, Nov. 12.

Doane, Foster P.—Key to More Profit? Remove More Water at the Wet End—35, March 26.

Dobrow, Morris C.—Production and Sales Set Records in '61 Despite Recession—20, Feb. 12.

Dow, Richard C.—S. D. Warren Makes Substantial Savings with Simultaneous Skid Strapping—48, Dec. 10.

Dyer, Harry—Boise-Cascade Completes Expansion, Doubles Output of Kraft Linerboard—36, May 7; Corrugators Focus Spotlight on Progress at Beantown Conclave—34, Nov. 5; Deinkers Scrutinize European Development, New Equipment—45, Oct. 15; Most Modern Stock Preparation Features Complex Electronic Blending System—32, August 13; $5,000,000 Adds Versatility to PCF's Market Pulps—36, May 21; On-Machine Roll/Blade Coating and Sheet Finishing at St. Francisville—28, March 26; The Paper Stock Industry Takes A Long, Hard Look at Itself—20, June 25; "Practical" Topics Hold Prime Interest of Alkaline Pulpers at Savannah—43, Nov. 12; Pulp Mill Co-Stars Chip Groundwood System and Kraft Continuous Digester—30, Sept. 3; Wet-on-Wet Coating, New Design Cutter-Layboy Highlight Cylinder Machine—36, Sept. 10; Weyerhaeuser's New Board Machine Features Versatile On-Machine Coater—44, March 12.
